**KALEA**   
LIFTS

NEXT LEVEL

# MINI – improves your home & makes everyday life easier!

**THE NEW KALEA A4 MINI** is our new small platform lift which can be fitted into very small spaces and is especially developed for private homes and department buildings. With a wide range of options and accessories the lift will not only blend into your home, it will complement it! For any space where you need freedom and increased accessibility- Kalea A4 Mini is a great solution. Choose A4 Mini to improve your home and make your everyday life easier!

**KALEA A4 MINI** is a screw driven vertical platform lift with self supporting shaft enclosure. When other lift types need construction work, pit, machine and head room, the A4 Mini demands minimum space and effort. The lift is easy to install and is delivered with a prefabricated shaft made of steel or laminated safety glass panels. Safety edges, emergency lighting and an alarm button guarantees that you feel completely safe. Personalize your Kalea A4 Mini by choosing your own RAL-colour, an elegant glazed shaft or a simple but still stylish steel shaft in combination with a variety of accessories and options.

**THE KALEA A4 MINI** is EC-type tested and certified by the Notified Body DNV, Det Norske Veritas.
